## **ABOUT IBAAS, CHALIECO & SINR**

**International Bauxite, Alumina & Aluminium Society (IBAAS)** is set up and registered in India [Registration No. MAH-820/12 (N.)] by professionals active in various fields of aluminium industry. The initial activities are focused in the Asian region with special attention to India, China, Indonesia, Vietnam, Saudi Arabia and UAE. The founders of this society have vast experience in organizing similar conferences on bauxite, alumina and aluminium in India and China. IBAAS has successfully organized the 3 International events of Aluminium Industry in India and China during 2012-2014 period. Details of these IBAAS International symposiums can be downloaded from website <http://www.ibaas.info/>

**China Aluminum International Engineering Corporation Limited (CHALIECO)**, a specialized Engineering Corporation is set up and registered in China [Registration No. 100000000038541(4-3)]. CHALIECO focuses on the research and development of new process, new technology and new materials in terms of non-ferrous metals, and has not only smelting technologies of light metals and heavy metals but also processing technologies for non-ferrous metals. At the same time it owns mining technologies including underground mining. CHALIECO can provide package solution for clients regarding non-ferrous metal industry project and its references can be seen from website [www.chalieco.com.cn](http://www.chalieco.com.cn).

China Nonferrous Metals Processing Technology Co.,Ltd (CNPT) belongs to CHALIECO and is the only comprehensive company in China, which focuses on the industry planning, project design, equipment manufacturing, research and development, and engineering general contracting for nonferrous metal processing industries. CNPT has more than 2000 professional personnel, including experts with “1000 talent plan” award and/or PhD degree. CNPT is holding 13 China first rate certificates for project consultation, project design, construction engineering, engineering general contracting for nonferrous metal processing industries. Therefore, CNPT is holding the dominant position for engineering general contracting, and represent the development direction of China nonferrous metal processing technology. For details, please visit <http://www.cnpt.com.cn/International/main.aspx>

**Suzhou Research Institute for Nonferrous Metals (SINR)** is a wholly-owned subsidiary of CNPT. The main business of SINR is research and development of new materials, technology, products and equipment, and providing technical service for nonferrous metal industries. SINR holds some important technologies together with specialized experts and advanced equipment for experiments and testing, which can provide professional and comprehensive solution for nonferrous metal processing industries.
