

## Newsletter Winter 2013

Back from another successful November visit to Kenya. Judith Taylor ran 4 weeks of sewing schools producing skirts and she again shared her skills at card making.

In partnership with Madaktari Mobile Initiative & The Peoples Church we held 4 days of medical/eye camps. We were also able to get a young boy called Denis examined for damage to his tear duct and arrangements made for a small operation to be carried out.

We donated a water cooler & microwave to the New Born Unit of a local hospital

We saw the braille donated in April now in use.

The church at Baricho now has a new toilet block which we had been able to contribute to financially

For future camps we will again gratefully accept used adult and children's spectacles.

**Our next trip will be  
Spring 2014**

We welcome support from individuals and business persons.

Your gifts will be gratefully received via
