7 DAY FLASH WHITENING

_Advanced High-Efficacy, Skin Bioaffinity Actives

Gentle, Effective Whitening
with high-efficacy ingredients to reduce the density of pigmentation concerns.

Day + Night Application

Test Panel Results:

- _95% of Age Spots Lightened**
- _57% Fewer Age Spots**
- _57% Smaller Age Spots**
- _71% more Luminous Skin**
- _81% Improved Skin Appearance**

A comprehensive day and night skin brightening program with Sepiwhite™ MSH, a patented depigmenting active that:

- _Reduces the melanin granules on the skin surface by -66% !**
- _Boosts skin radiance of the entire complexion by +75% !**
- _Reduces wrinkles by -59.8% and -74.6% at 45 days and 90 days respectively!**
- _Reduces skin roughness by -45% and -65.4% at 45 and 50 days respectively!**

_Synergistic patented actives promote a rapid reduction in the appearance and density of age spots, sun spots and other pigmentation concerns by inhibiting the synthesis of melanin in both the epidermis and on the skin surface.

High-Efficacy Actives:

Sepiwhite™ MSH

A gentle lightening agent that illuminates the complexion and reduces the density of hyper-pigmented areas such as age spots using an innovative mode of action for super-fast, effective and safe skin brightening.

Parsol® MCX | Parsol® 1789 | Neo Heliopan® OS

A synergistic blend of sun protection actives that block damaging UVA and UVB rays that can lead to sun spots, age spots and signs of premature aging.

Lactic and Salicylic Acid

Naturally derived exfoliating actives that work by gently sloughing off dead skin cells, increasing cellular turnover and hydrating the skin for a fresh and rejuvenated complexion.

Ascorbyl Glucoside

A stable form of Vitamin C that significantly reduces fine lines, wrinkles and folding of the skin, reverses the degenerative effects of UV rays and combats the production of melanin and pigmentation in the skin, giving it a clearer, brighter and more luminous appearance.

BDT 401

A specially treated sunscreen that prevents UVA/B ultraviolet rays and also provides lubrication and conceals flaws and imperfections.

DAY 7 Day Flash Whitening Cream

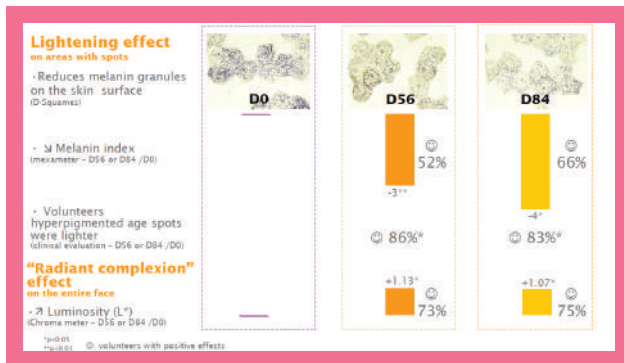

A clarifying and depigmenting cream that combines the synergistic benefits of UVA/B protection, Sepiwhite™ MSH, Alpha and Beta Hydroxy Acids to inhibit the synthesis of melanin in both the epidermis and skin surface and reveal a clearer, more even and luminous skin tone.

Directions Apply in the morning after cleansing and toning and gently massage into the skin until fully absorbed.

NIGHT 7 Day Flash Whitening Night Lotion

A radiance boosting night lotion that incorporates Sepiwhite™ MSH and Ascorbyl Glucoside - a stable form of Vitamin C that maintains its potency and color when exposed to heat, light and air and functions as an antioxidant, an inhibitor of melanin and a stimulator of collagen synthesis - to help lighten and brighten the skin, stimulate healthy collagen synthesis and accelerate skin firming and also aid in the prevention of fine lines and wrinkles.

Directions Apply at night after cleansing and toning and gently massage into the skin until fully absorbed.
