

bio argan oil

BIOSTRATACANADA
innovative . natural . effective

Formulated to address stretch marks, dehydrated skin, scars and pigmentation, this rich yet light oil is easily absorbed by the skin. Vitamins A and E help to rejuvenate and encourage healthy cellular regeneration while Soybean, Sunflower and Argan Oils work to revitalize and plump up fine lines, diminish signs of dehydration and promote a brighter, more even skin tone.

Directions: Apply generously and gently massage onto areas of the body until fully absorbed as needed.

Active Ingredients: Argania Spinosa (Argan) Kernel Oil, Retinyl Palmitate, Tocopheryl Acetate, Pelargonium Graveolens (Geranium) Oil, Eucalyptus Globulus (Eucalyptus) Oil, Lavandula Angustifolia (Lavender) Oil, Mentha Piperita (Peppermint) Oil.

Anti-Oxidant and Regenerating Ingredients

Retinyl Palmitate

(Vitamin A) With skin regenerating properties (promotes epithelialization and keratinization) that can help improve the appearance of aged, rough and blemished skin.

Tocopheryl Acetate

(Vitamin E) Due to its antioxidant activity, Vitamin E helps combat the damaging effects of free radicals stemming from various sources including pollution, UV radiation, poor nutrition and as a result of aging. Vitamin E has also been shown to significantly reduce the appearance of stretch marks on the skin and it can even help gradually fade scars.

Nourishing Botanical Oils and Pure Essential Oils

Lavender Oil

Reduces the appearance of scars and calms skin irritations

The soothing and anti-inflammatory action of Lavender Oil has a balancing action on the skin and can be used for dermatitis, eczema, psoriasis, boils, carbuncles and acne. Its cicatrisant (scar forming) properties helps the skin heal faster and the cytophylactic (cellular regenerating) properties will help it do so with less scarring.

Geranium Oil

Stimulates healthy blood circulation and removes toxins

Geranium Oil promotes cell health and also encourages recycling of dead cell and regeneration of new cells. It also aids in scar formation that helps diminish the appearance of scars and other blemishes.

Eucalyptus Oil

Helps to speed up the healing of slow healing wounds

Eucalyptus Oil's soothing and calming effect on the whole body can also help with the immune system. Apart from giving pain relief to muscular spasms and rheumatism, Eucalyptus Oil can also help speed up the healing of slow healing wounds, calm skin eruptions and clear congested skin.

Peppermint Oil

Cools and calms skin irritations

The refreshing scent and cooling action of Peppermint Oil on the skin can help to relieve skin irritation and itchiness, reduce skin redness and relieve mental tiredness and fatigue.

Argan Oil

Rich in Vitamin E, helps reduce scarring and stretch marks

Argan Oil, rich in moisturizing fatty acids and anti-oxidant Ferulic Acid, helps to restore the skin's natural protective barrier and protects the skin from environmental damages. It can also help to improve moisture levels and assist the skin to retain its own moisture for optimal softness and elasticity.

Sunflower Oil

Moisturizes, calms irritations and smoothen fine lines and wrinkles

High in Vitamins A, C, D and E, Sunflower Oil's natural anti-oxidant, calming and emollient (moisturizing) properties can help to prevent damage to sensitive skin cells by ultraviolet (UVA) light, reduce signs of redness or irritation, prevent scarring and smoothen the appearance of existing wrinkles.

Soybean Oil

Promotes firmer skin with an even skin tone

Naturally rich in Vitamin E, essential fatty acids and lecithin, Soybean Oil can help to promote skin healing, cellular regeneration and encourage the synthesis of collagen and elastin. Soy proteins can also moisturize the skin and reduce the appearance of fine lines, diminishing blotchiness and discoloration by evening out the appearance of pigments within the skin's surface.

Bio Argan Oil | Product usage:

Formulated to address stretch marks, dehydrated skin, scars and pigmentation, this rich yet light oil is easily absorbed by the skin. Vitamins A and E help to rejuvenate and encourage healthy cellular regeneration while Soybean, Sunflower and Argan Oils work to revitalize and plump up fine lines, diminish signs of dehydration and promote a brighter, more even skin tone.

MAIN USES:

Prevent/minimize stretch marks (pro-active)

-Apply generously to belly area before signs of belly bulging, to soften and enrich skin to prevent stretch marks from forming.

Prevent/minimize stretch marks (reactive)

-Apply generously to affected areas with stretch marks to even out skin tone.

Spot Treatment for Dry Skin

Apply generously to:

- Combat dry, flaky, itchy patches as an intensive spot treatment.
- Suitable for dry and cracked heels and cuticles.

Day to Day Moisturiser

-After showering, work a small amount of the oil into your clean skin for an all over everyday body moisturiser.

ALTERNATIVE USES:

Hair Oil

-Great pre-wash treatment to help replenish dry and damaged hair. Simply put a towel down on your pillow before bed, work the oil through your hair and then sleep on it over night to help lock in moisture. In the morning, wash your hair like normal to give your tresses a real shiny and healthy boost.

- A drop on the scalp can help reduce itching and flaking.

Shampoo Additive

-Add it to your shampoo to reduce itching and flaking.

Sunburn Soothing

- Rub it on sunburns to prevent peeling and soothe burned skin.

Cuticle Care

-Massage a small amount of Bio Argan Oil into your fingers on a daily basis to help with dry hands, brittle nails and peeling cuticles

Body Scrub

-Homemade exfoliating treatment. Mix with fine sea salt, rub it in onto the desired area and wash off in a warm shower. The warmth will help dissolve any remaining granules to leave your skin smooth, soft and refreshed.

Bath Oil

-Mix a few drops with bath water to condition the skin.

Pre Shave Treatment

-Apply to desired area as a pre shave treatment to soften skin and prevent nicks.
-Smooth on freshly plucked brows to soothe skin and reduce redness.
