A new strategy for an ideally moisturized and restructured skin

H2O GLOW ACTIVATOR

35ML

Multi Layer Hyaluronic Acid Shine Activator

Designed with Sensonov WR and Multi Layer Hyaluronic Acid to create a special membrane/layer to retain moisture on the skin's surface. Specially formulated with other active ingredients to gently exfoliate, lock in moisture and activate skin cells boosting elasticity and cellular function.

Softens and removes dead cells, detoxifies the skin reduces wrinkles and promotes skins natural shine.

PRODUCT SPECIAL FEATURES

- 7 different molecular weights of Hyaluronic Acid, providing balanced overall skin hydration effects. Has visible Shine effect which locks in moisture and protects skin against the environment.
- Prevents skin dryness and improves skin nutrient absorption.
- Softens and removes dead cells.

ACTIVE INGREDIENTS

Hyaluronic acid (7 molcular weights) | helps reduce the visibility of fine lines and wrinkles retaining moisture to the skin, creating a plumping effect. When the skin is protected and hydrated, increased skin cell production leading to smoother, plumper skin.

SENSONOV WR | A special membrane that holds moisture in the skin.

DYNALIFT | A tightening active from vegetable origin that provides an immediate and durable tightening effect. Fine lines and wrinkles becomes less visible (and the wrinkle depth is decreased).

BACILLUS FERMENT (enzyme exfol) | is an enzymatic exfoliant used to exfoliate the skin and is a mild but effective alternative to alpha hydroxy fruit acids and is active at a mild pH range of 5-8. Natural enzymes that eliminate dead skin cells to smooth the skin's surface. Functions as non-mechanical, but enzymatic exfoliation process. Provides younger looking skin.

PLANT EXFOL ESSENCE | Gently exfoliates the skin, promotes cellular renewal and active ingredient absorption.

CHAMOMILE EXTRACT | A natural extract with anti-inflammatory properties that helps to reduce skin redness and irritation.

DIRECTIONS | Squeeze sufficient amount of product into palm. Apply to the entire face. Suitable for day or night.

MOLECULAR FILM A NEW COSMETIC DELIVERY SYSTEM

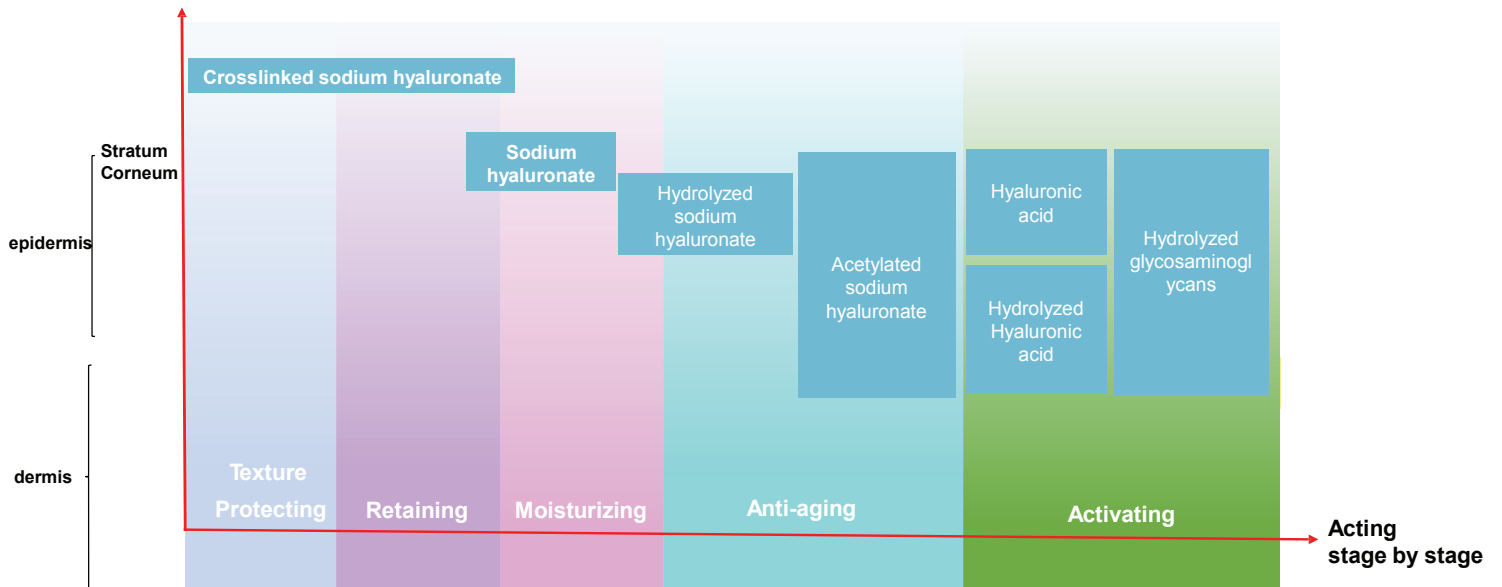

ACTIVE INGREDIENT - 7 LAYER HYALURONIC ACID

The most dramatic histochemical change observed in senescent skin is the obvious decrease of epidermal and dermis Hyaluronic Acid

Penetrating layer by layer

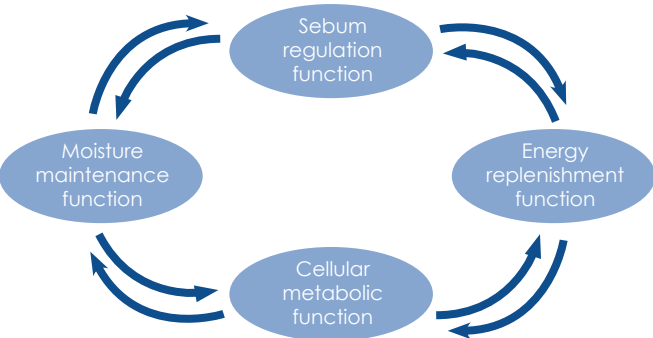

7 Layer Hyaluronic Acid

Nourishing

H2O RADIANCE GLOW CREAM

35ML

Overall skin lightening and balancing cream, with physical powder actives to even out skin texture, promoting skin's natural healthy glow

Nourishing rich cream naturally rich in CoEnzyme Q10. Penetrates the skin and reduces free radical damage, builds collagen and elastin, reduces the appearance of lines and wrinkles. Hides imperfections without masking, correct skin tone while keeping the skin looking natural.

ACTIVE INGREDIENTS

Ronaflair Green/Gold (physical filler) |

_Hides imperfections without masking, correct skin tone while keeping the skin looking natural.

CoEnzyme Q10 |

_Powerful anti-oxidant can help re-energize the skin and prevent future cumulative sun damage.

BACILLUS FERMENT (enzyme exfol) |

is an enzymatic exfoliant used to exfoliate the skin and is a mild but effective alternative to alpha hydroxy fruit acids and is active at a mild pH range of 5-8. Natural enzymes that eliminate dead skin cells to smooth the skin's surface. Functions as non-mechanical, but enzymatic exfoliation process. Provides younger looking skin.

PLANT EXFOL ESSENCE | Gently exfoliates the skin, promotes cellular renewal and active ingredient absorption.

GRANACTIVE RETINOID A |

_Cosmetic grade ester of all-trans retinoic acid that enhances cell proliferation and improves cellular turnover, processes in the skin that are critical for fighting and reversing signs of ageing.

_Improves skin clarity, firmness and imperfections. Dark spots, pore size and skin imperfections are reduced for a more even skin tone and a brighter and more luminous appearance.

_With anti-aging and anti-acne blemish benefits and low irritation, effective active delivery.

Sepiwhite™ MSH

A gentle lightening agent that illuminates the complexion and reduces the density of hyper-pigmented areas such as age spots using an innovative mode of action for super-fast, effective and safe skin brightening.

DIRECTIONS | Apply to cleansed and toned skin until fully absorbed. Can be used twice daily, day and night.

ACTIVE INGREDIENT - SEPIWHITE MSH™

SEPIWHITE MSH™

Mode of action

SEPIWHITE MSH

α-MSH antagonist

Inhibits all key steps in the α-MSH-induced melanogenic cascade

Sepiwhite™ MSH

A gentle lightening agent that illuminates the complexion and reduces the density of hyper-pigmented areas such as age spots using an innovative mode of action for super-fast, effective and safe skin brightening.

Adding SEPIWHITE MSH to a melanocyte culture decreases basal melanogenesis, including α-MSH-induced melanogenesis and UVB-induced melanogenesis

*6 days

Decrease melanogenesis:

	Basal	α-MSH induced	UVB induced
SEPIWHITE MSH	-66%	-145%	-66%
ARBUTIN		-53%	-97%
KOJIC ACID			-55%
MAGNESIUM ASCORBYL PHOSPHATE			-53%
HYDROQUINONE	-100%	-100%	TOXIC

Lightening effect on areas with spots

- Reduces melanin granules on the skin surface (D-Squames)

- ↓ Melanin index (mexameter - D56 or D84 / D0)

- Volunteers hyperpigmented age spots were lighter (clinical evaluation - D56 or D84 / D0)

"Radiant complexion" effect on the entire face

- ↑ Luminosity (L*) (Chroma meter - D56 or D84 / D0)
