BIOSTRATA

Lifting & Plumping For Deep Expression Lines

All skin

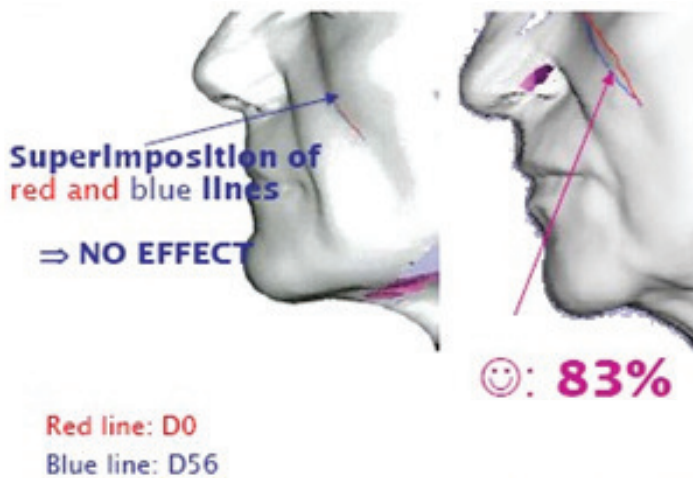

A 2 step anti-wrinkle and facial lifting treatment with Voluform™, a patented pure Lipo amino acid structure that has :

- 3 Patents
- Is Certified Green Label: Ecocert
- Has Proven Efficacy: 2 in vivo test

_Lifts, Fills and Redefines
Combines Voluform™ with the regenerative properties of Proteolea® and the lifting effects of Dynalift™ and Liftonin®-Xpress to increase the volume within facial folds and provide instant smoothing of fine lines and wrinkles.

STEP_1 Volulift Corrective Serum

STEP_2 Instant Lifting Cream

STEP_1 Volulift Corrective Serum 35gm e-1.23Oz.

Fight skin sagging and slackening of elastic tissues caused by aging with a synergy of actives including Liftonin®-Xpress and Voluform™ that promote a natural, non-intrusive facial contouring, lifting and plumping effect while deeply protecting and moisturising the skin.

Directions Apply directly to deep expression lines, such as crow's feet, frown lines, nasolabial folds and around the mouth, gently massaging into skin with finger tips. Apply twice daily, morning and evening, after cleansing and toning.

STEP_2 Instant Lifting Cream 35gm e-1.23Oz.

Protect, repair and restore skin luminosity and radiance with synergistic actives including Dynalift™, Proteolea®, Defensil®, Moist 24™ and Vitamin E that visibly recontour sagging skin and revitalise the skin by promoting cellular detoxification, repairing DNA oxidative damage and harmonising the skin lipid barrier.

Directions Apply over STEP 1 directly to deep expression lines such as crow's feet, frown lines, nasolabial folds and around the mouth, gently massaging into skin with finger tips. Apply twice daily morning and evening, after cleansing and toning.

Actives:

_Liftonin®-Xpress

Provides an immediate and long-lasting tightening and lifting effect that smoothens and minimizes fine lines and wrinkles. Also improves the micro-structure of aging skin with signs of collagen loss.

_Voluform™

Volumises and plumps up hollowed cheeks with up to +83% increase in cheek volume. Fills in fine lines and deep to moderate wrinkles with a +10% increase in skin elasticity.

_Dynalift™

A tightening active from vegetable origin that provides an immediate and durable tightening effect. Fine lines and wrinkles becomes less visible (5 min: -55%, 1h: -62%) and the wrinkle depth is decreased by more than -23%.

_Proteolea®

Protects the skin against excessive cellular waste by activating the Proteasome, the natural recycling system in skin cells, which slows down with age. The first signs of time such as wrinkles and skin renewal are markedly improved, leaving skin visibly and perceivably younger.

_Defensil®

A skin-conditioning agent with botanical extracts that normalises sensitive skin by soothing irritated, inflamed and red skin with long-lasting, constant action to help replenish, harmonise and protect the skin.
