1 Beyond QuadArchiver in FocalPoint Server Booth

Telestream Demonstrates New Features on 1 Beyond StreamMachine and StreamMachine Pro

1 Beyond LTOMac With YoYottaID in the Sony Booth

StorageDNA Evolution on 1 Beyond Systems at IBC 2013

1 Beyond QuadArchiver in the FocalPoint Server Booth

Background:

The 1 Beyond QuadArchiver (tm) was designed for the organization that has hundreds or even thousands of legacy video tapes to preserve. Digitize 4 signals simultaneously to LTO and add metadata to asset management system.

Key Features Include:

- One operator can easily control several decks simultaneously, each deck independently.
• Simultaneous Proxy recording. Each Video and Proxy format is independent.
• Jog Shuttle or Intuitive VTR controls can position the tape, mark In and Out points or record specified duration.
• Record time codes are displayed along with record progress bars.
• Easy File Type selection drop down menu. Independent for each recorder.
• Independent default file names can be pre-set

Booth located at stand 7.J15c in Hall 7.

Telestream Demonstrates New Features on 1 Beyond StreamMachine and StreamMachine Pro

The **1 Beyond StreamMachine(tm)** is a 4-input switcher/ recorder/ streaming system all in one, with professional features.

To Be Showcased at IBC (Booth 7.C12) :

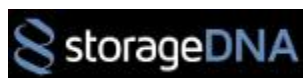

- Latest WireCast software
- Now with optional touchscreen
- Keypad controls for easy switching

1 Beyond LTOMac with YoYottaID in the Sony Booth

The **1 Beyond LTOMac (tm)** with **YoYottaID** makes it easier than ever to backup your data to LTO tape. YoYottaID can quickly create industry standard archives on LTO-5 or LTO-6 tapes. It also has the power and flexibility to name, format, mount and repair tape archives. The Library module remembers the contents of every tape created so later on you can search online to find the location of shots. You can find the **1 Beyond LTOMac** with **YoYottaID** at the Sony Booth (**Booth 12.A10**) at the 2013 IBC.

StorageDNA Evolution on 1 Beyond Systems at IBC 2013

Storage DNA will be showcasing their flagship software StorageDNA Evolution on the **1 Beyond LTOMac**. DNAEvolution provides superior

archive and retrieval to LTO including powerful search and browse features and conform from LTO for maximum workflow efficiency. You can watch a demonstration of DNA Evolution on the **1 Beyond LTOMac** at IBC 2013 (Booth 7.J47) And be sure to stay tuned for more exiting announcements.
