

FYI Press Inc., and Jeff Wagner are grateful to the Ratajczyk family for setting the record straight on how it actually went down concerning their participation in 'Soul on Fire.'

From Jeff Wagner:

Chapter 13 of 'Soul on Fire' was indeed a difficult final chapter to research and write.

Somewhere in the summer of 2013 it became obvious that what I was learning about Peter's final months would not be welcomed or popular with certain family members or friends. But the final chapter went where the research and interviews told me to go. This was bound to be unpopular with some people.

It became a choice of telling the story as I felt it needed to be told, or pleasing people by leaving out huge chunks of eyewitness testimony.

I took the former road, in the name of integrity, and steeled myself for the fallout. I maintain respect for the Ratajczyk family.

As for other critics of this book, there's a suspicious lack of quality data coming from people who claim to know the truth yet offer nothing of substance to back it up. There have been a few grievances from people who have misunderstood what was written, or have shown they haven't read Soul on Fire in its entirety, or at all.

If someone reads this book thoroughly and still finds information they believe to be incorrect, please contact us with your data and sources. I will be happy to look into it and make corrections in future editions. If you have nothing to contribute but misdirected idiocy, I will smell the horseshit acres away.

Corrections have already been made in the first reprinting of Soul on Fire: "incisors" was corrected to "canines"; "WHAQ" was corrected to "WAXQ"; one appearance of "Dough" was corrected to "Doug" (our apologies to Mr. Keogh!).

In a time of blood and fire,

Jeff Wagner
